

# Sponsorship Package Opportunities

To promote, for the public benefit, education in the scientific and technical aspects of petroleum exploration

PESGB COMMUNITY	INDUSTRY	EDUCATION & OUTREACH
<p>These events allow companies use their sponsorship and advertising to communicate directly with the membership. Raising their profile within the Geoscience community.</p>	<p>This is an opportunity for companies to raise their profile within the industry, to make their brand visible and to 'show off'. The companies that sponsor in all areas are also supporting the association to achieve its wider objectives around membership.</p>	<p>These events are to promote the education of Geology and Petroleum Exploration (where appropriate) to an audience wider than the membership alone. These events do not attract VAT as they are purely charitable.</p>
